Practicum/Work Placement Opportunities

LAWS13020 Legal Professional Portfolio

CQU has fully mapped its curriculum to include experiential learning opportunities in numerous subjects. These opportunities focus on skills development and include: • Simulations - moots, branching simulations, role plays • Drafting legal documents • Client interviewing exercises • Developing legal apps • Emerging Clinical programs - embedded within individual units, as digitally badged experiences, pro bono community service opportunities and where possible work placements (organised by students).

CQU is also entering into a Work Experience Placement Program at the Director of Public Prosecutions (ODPP). Some CQU law subjects have assessment options which enable students to organise and gain recognition of physical placements in legal firms, with barristers and in government legal agencies. The reason these work placements are optional is that the majority of the student body studies part-time online. Placements need to match the flexibility requirements of students.

A memorandum of understanding has been signed between CQU and the Central Queensland Community Legal Centre Inc (CQCLC). The CQCLC is a community-based, government funded organisation which provides free legal advice and minor assistance to members of the community who may not otherwise be able to access or afford such assistance. The initiative involves the introduction into the CQCLC of CQU law student pro bono volunteers, both in person and online, supervised by CQU staff with the intention of expanding the course into distance advice if the initial trial is satisfactory. It is intended that all CQU law students will have the opportunity to be involved with this course. Should this initiative prove successful it will be rolled out to further rural and regional community legal centres.

LAWS12073 Legal Engagement Placement

Students will undertake a three-week legal humanitarian mission to Phnom Penh, Cambodia, in conjunction with the organisation Antipodeans. Prior to the overseas humanitarian mission, students will study appropriate aspects of international humanitarian law; appropriate aspects of Cambodian law and culture; and will develop practical skills necessary to support their overseas mission. Upon return to Australia, students will undertake an analysis and presentation of their accomplishment. Students will be assessed prior to departing to Cambodia; continuously during the placement period; and on the basis of their contribution to a final group presentation.

Internship Information

Students undertaking an internship will enrol in the unit COIT13239 Undergraduate ICT Internship instead of the capstone unit COIT13230 Application Development Project.

Students who elect to take the internship option instead of a capstone unit should refer to the study schedule posted on the Moodle site "School of Engineering and Technology Internships" (SET Internships).
