Work Placement/Practicums

Students will be required to complete a series of placement/practicum units in order to meet the accreditation requirements of the CC12 Bachelor of Education (Primary) Catholic Education strand. The details have been outlined below:

EDFE11038 Professional Practice 1

20 day supervised placement in an educational setting comprising 5 non-assessable contextual days and 5 assessable days completed on a one day per week basis throughout Term 2 of the first year and a 10 day continuous assessable block. Set tasks for this professional practice are outlined in an Information and Guidelines booklet supplied to mentor teachers in schools and/ or other educational settings. Students compile a working portfolio as a collection of evidence for demonstrating these tasks which are linked explicitly to the Australian Professional Standards for Teachers (Graduate level). They complete a self-evaluation against the assessment indicators midway through the 10 day block and receive an interim report from the mentor teacher at this stage. Final assessment is completed by a mentor teacher in the placement workplace in conjunction with a university staff member. Students are assessed on a Pass/ Fail basis at the completion of the 10 day block using the same indicators as the Interim Report. Students must pass the practical placement to pass the unit. Follow-up assessment requires students to create an e-portfolio linking specific evidence from the placement to the professional standards.

EDFE12042 Professional Practice 2 (Primary)

25 day supervised placement in a school setting comprising 5 non-assessable contextual days and 5 assessable days completed on a one day per week basis throughout Term 2 of the second year and a 15 day continuous assessable block. Set tasks for this professional practice are outlined in an Information and Guidelines Booklet supplied to mentor teachers in schools who supervise and assess students’ performance during the placement. Students maintain an up-to-date working portfolio as a collection of evidence for demonstrating these tasks which are linked explicitly to the Australian Professional Standards for Teachers (Graduate level). They complete a self-evaluation against the assessment indicators midway through the 15 day block and receive an interim report from the mentor teacher at this stage. Final assessment is completed by a mentor teacher in the placement workplace in conjunction with a university staff member. Students are assessed on a Pass/ Fail basis at the completion of the 15 day block using the same indicators as the Interim Report. Students must pass the practical placement to pass the unit. Follow-up assessment requires students to make additions to an e-portfolio linking specific evidence from the placement to the professional standards.

EDED12448 Service Learning - Contexts and Communities

20 hours of engaged community service that aligns with a service learning plan approved by the unit lecturer. Evidence of completion of the service with a community organisation must be provided in the form of a signed “Confirmation of Service” statement.
EDFE12044 Professional Practice 3 (The Catholic School Placement)

Students will prepare for and complete an assessable professional experience placement in a Catholic school as a required component of their acceptance into the Catholic Education strand of the course. Students will participate in tutorials, practical workshops and school placement which comprises a two-week contextual block from the commencement of the school year, 10 single day visits and a 15-day continuous block. Learning outcomes in this unit is designed around two integrated modules. In the first module, students will enhance their ability to design, adapt, implement and assess teaching sequences that cater for the diverse needs of learners in mainstream classrooms. Students will develop knowledge of the purposes of using assessment for learning and practices for interpreting student data that inform differentiation practices. In addition, students will learn and apply teaching practices for setting learning goals, modifying lessons plans and learning sequences, adapting pedagogical approaches and using feedback techniques that are responsive to students’ learning needs. In the second module of this unit, students will build their knowledge and understanding of the particular strategies, rituals, traditions and resources that characterise the Christian belief practices of Catholic school communities. Students will use this knowledge to reflect on the responsibilities of teachers within the Catholic schooling system and the nature of partnerships with parents/carers and the school community in supporting engagement and participation in the important personal and communal faith rituals of the Catholic tradition.

EDFE14021 Professional Practice 4

30 day supervised placement in a school setting comprising 5 non-assessable contextual days completed on a one day per week basis in preparation for the continuous teaching block; and a 25 day continuous assessable block at the end of the term. Set tasks for this professional practice are outlined in an Information and Guidelines Booklet supplied to mentor teachers in schools who supervise and assess students’ performance during the placement. Students maintain an up-to-date working portfolio as a collection of evidence for demonstrating these tasks which are linked explicitly to the Australian Professional Standards for Teachers (at Graduate career level). They complete a self-evaluation against the assessment indicators midway through the 25 day block. In response to these reports students construct a detailed plan for professional development and learning throughout the remainder of the placement and submit it to the mentor teacher for feedback and consideration against the Interim report prepared by the mentor teacher. Subsequent negotiation of the student’s professional learning activities follows this evaluation. Final assessment is completed by a mentor teacher in the placement workplace in conjunction with a university staff member using the Queensland Professional Experience Reporting Framework. Students are assessed on a Pass/ Fail basis at the completion of the 25 day block using the same indicators as the Interim Report. Students must pass the practical placement to pass the unit. As part of the unit, students complete a Graduate Teacher Performance Assessment task which provides written evidence of the achievement of the Australian Professional Standards of Teachers (at Graduate Career stage).

EDFE13034 Internship (Engagement with Catholic School Communities)

Interns in Catholic school settings participate in all aspects of teaching, learning and engagement with the school community during a sustained period of professional practice. Students will take an active role in all aspects of the professional work of teachers while enhancing their religious literacy and understanding of both the knowledge components of the Catholic religion and its living components (or “practice”) within broader Catholic communities. In their role as an intern, students will collect evidence of their understanding of, and engagement with, the people, places, resources and language of Religious Education in contemporary Catholic school settings. Students will develop a personal professional philosophy that expresses an understanding of their role in Catholic schools as places of learning and their responsibilities for engagement with faith communities that value and practice social justice principles as a way of expressing and living out Christian beliefs. The internship is designed as a guided partnership between students (the intern) and a mentor teacher. This placement supports students’ transition from pre-service teacher to an autonomous, collaborative, reflective educator who can consistently demonstrate the knowledge, skills and dispositions described in the Australian Professional Standards for Teachers (Graduate Career Stage) and a secure understanding of the roles and responsibilities of teachers in the Catholic Education system.

Additionally, if you would like to be eligible for the embedded Diploma of Early Childhood Education and Care you are required to complete a 20 day placement in a childcare service.

As part of QCT accreditation, students must have passed ALL coursework, except EDED14354 The Ethical Professional, before undertaking EDFE14021 Professional Practice 4 – Learning and Teaching in Action and EDFE14020 Professional Practice 5 – The Internship.

Placements should be completed as per the structure identified in the Professional Practice Calendar which can be accessed from the Education Gateway Moodle site at the beginning of each academic year. In situations where variations to the calendar are unavoidable, the pre-service teacher should obtain approval by email from the Associate Director of Professional Practice (or their delegate).

Important Note: This Course Planner has no formal or legal status but is used to assist students in planning their course. Students should refer to the official University database and/or University transcripts to ensure they are meeting course requirements.
Last Updated: 01/02/2019
Pre-service teachers must be aware that they cannot receive remuneration in any form for duties carried out as part of Professional Practice placements.

Working with Children Check
Pre-service teachers must be enrolled in a CQU Professional Practice unit and be in possession of a current Positive Notice Blue Card (or equivalent "Working with Children" check issued in other Australian states or territories) to be eligible for placement in a school/early learning centre/educational site. Please contact your Placement Officer to obtain further information.

Embedded Diploma Eligibility
A key feature of the Bachelor of Education (Early Childhood & Primary) is the embedded VET qualification: The Diploma of Early Childhood Education and Care.

To be eligible for the embedded Diploma of Early Childhood Education and Care, students must successfully complete the following:

Term 1
- EDED11454 Education as a Profession
- EDCU11032 Health and Physical Education
- EDCU11033 Multiliteracies
- EDCU11031 Development and Learning through Life

Term 2
- EDED11456 Communication in Educational Environments
- EDED11457 Responding to Diversity and Inclusion
- EDED11455 Curriculum Foundations and Decision-Making
- EDFE11038 Professional Practice 1 - Introduction to Teaching

Term 3
- EDED11458 Indigenous Studies and Learning
- EDFE40001 Early Childhood Education and Care Practice (20 day Diploma Practicum) (Single Non-Award enrolment)

The 20 day diploma practicum fulfils the requirements for duration of on-the-job performance for the diploma qualification. The placement also fulfils the requirements for Early Childhood Education programs approved and registered under the Australian Children’s Education & Care Quality Authority (ACECQA). These requirements stipulate that students must complete a minimum of 10 days with children in the birth to 2 years group as part of their preservice training.

The Diploma placement is optional for all CC14 Bachelor of Education (Early Childhood) and CC12 Bachelor of Education (Primary) students, however, Early Childhood students must still complete the minimum of 10 days with children in the birth to 2 years group to meet Australian Children’s Education & Care Quality Authority (ACECQA) requirements. While students don't need to undertake the diploma placement during term 3, we encourage students to complete the placement within a few months of completing the preplacement requirements as Training Packages and VET qualifications are under constant review. In addition, students must complete compulsory First Aid training prior to commencing the workplace placement and this training only remains current for a period of one year.

Competencies for this VET qualification are embedded within the 9 first year units of the Bachelor of Education (Early Childhood/Primary) degree. Students who receive credit/exemptions towards the 9 first year units may not be eligible to receive the embedded Diploma as the competency requirements will not have been met. Students must complete the units with the embedded competencies to be eligible for the Diploma.
