

Anydesk allows CQUniversity Staff and Students to access a range of services such as network drives and software when off campus.

How To – Access Anydesk

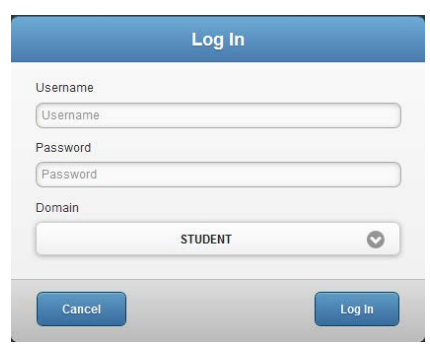

1. Open an internet browser and access <http://anydesk.cqu.edu.au>
2. You will be presented with the option of *Install VMware Horizon View Client* or *VMware Horizon View HTML Access*.

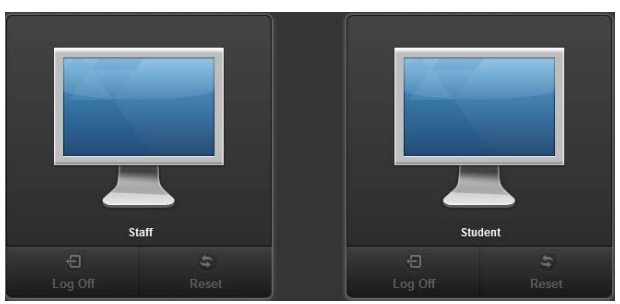

You can log into the Anydesk virtual machine in your browser by clicking on the *VMware Horizon View HTML Access* or by installing *VMware Horizon View Client*. The client offers more features if you will be using Anydesk regularly.

How To – VMware Horizon View HTML Access

1. Click *VMware Horizon View HTML Access*.
2. Enter in your CQUniversity username and password.
Set the *Domain* to *Staff* or *Student*.
3. Click *Log In*.
4. Select *Staff* or *Student*.
5. A *Legal Notice* will appear. Click *Ok* to proceed.
6. You are now logged into a virtual machine which is similar to a CQUniversity desktop computer.
7. When finished, log off as normal.

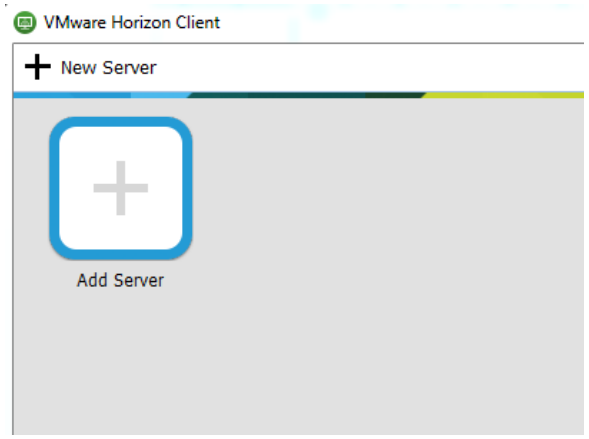

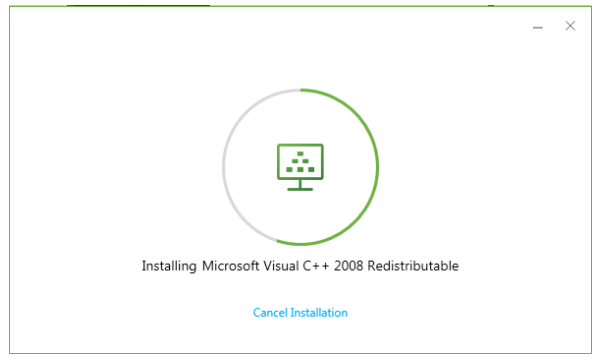

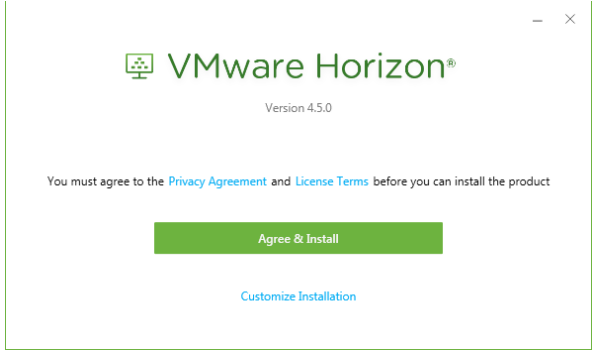

If you require further assistance, please contact the Technology and Services Assistance Centre (TaSAC).

How To – VMware Horizon View Client

1. Click *Install VMWare Horizon View Client*
2. Find your operating system and click *Go to Downloads*.
3. Click *Download*.
4. Once finished, run the software from the downloaded file. This will run the *VMware Horizon Client Setup*.
5. Click *Agree & Install*.
6. Once completed installing, click *Finish* and restart computer.
7. Open Anydesk from your programs list.
8. Click on *+ New Server*.
9. Enter *anydesk.cqu.edu.au*
10. Click *Connect*.
11. Enter in your CQUniversity username and password. Set the *Domain* to *CQU (staff)* or *Student*.
12. Double click on either *Staff* or *Student*.
13. A *Legal Notice* will appear. Click *Ok* to proceed.
14. You are now logged into a virtual machine which is similar to a CQUniversity desktop computer.
15. When finished, log off as normal.
